
advertising

Posted by asopdias - 2007/02/20 08:04

Hi it is already annoying the advertisement, but it is not working too??? I will wait from you at least put a banner that works for a week then you are out. Thank you.

Could you please rephrase, I do not quite understand what your questions is or how I could resolve your issue.

PS: you can disable blastchat ads/banners and if desired you can place your own ads/banners
