
Seeing Component on Frontend

Posted by CETraining - 2007/02/28 04:48

I have just installed and registered Blastchat but don't know how to make it visible on the my Frontend. Please advise...

Thanks

Matt Beadle

You really should be directing this question to Joomla documentation or Joomla forums. This is a matter of creating new menu inside Joomla system and has nothing to do with BlastChat. Either way:

1. login to you joomla admin backend
 2. click menu "Menu" -> mainmenu
 3. click "new" icon
 4. Select "Component" form "Components" area
 5. Type Name of link and highlight BlastCHat client 2.2
 6. click "Safe"
