
Problem with dynamic updating?

Posted by spooky - 2007/03/22 09:45

I have joomla 1.0.12 version and install component blastchat and module. Everything is okay but auto updating of users in module of the front page doesn't work. What is the problem ? How can i fix it ? Thanks in advance :)

There is known problem with usernames which has foreign characters, are you referring to this problem? Or how does your problem propagate?
