
ie7 and firefox problems

Posted by caddy - 2007/03/28 11:33

installed blastchat as joomla component , was working ok for a day , but now its using 100%cpu , this happens here also at blastchat.com when i try to join chat, but no problems with firefox, i am getting this with several pc's ?

Yes, you are right, new changes I have made have problems with IE, javascript is not finishing up, I'll have to trace it down.

Thanks for info.

well, imagine this:

IE has problems when I added these lines to the code to be xhtml compliant:

```
<!DOCTYPE html PUBLIC "-//W3C//DTD XHTML 1.0 Transitional//EN" "http://www.w3.org/TR/xhtml1/DTD/xhtml1-transitional.dtd">
<html xmlns="http://www.w3.org/1999/xhtml" dir="ltr">
```

IE really is pathetic browser.
