## cant download module

Posted by meocrisis - 2008/06/29 03:28

---

hello there,

i cant download the client module from here:

[http://www.blastchat.com/component?option=com\\_docman/task,doc\\_download/gid,12/Itemid,118/](http://www.blastchat.com/component?option=com_docman/task,doc_download/gid,12/Itemid,118/)

all i get is a zipfile which contains this text:

```
Fatal error: Allowed memory size of 180355072 bytes exhausted (tried to allocate 1048577 bytes) in /home/apps/httpd-2.2.6/htdocs/administrator/components/com_docman/classes/DOCMAN_file.class.php on line 157
```

it seems to be a server problem on your side, or?

could anyone fix this please? i cant find this module on any other joomla-sites...

thx

.meo

I'll take a look at this, I am seriously starting to consider replacing DOCMAN with something else, this is ridiculous that download of such small file should require more then few KB of memory allocation. Please, retry in few minutes after this post.
